

FLOWAL Mg

Magnesium deficiency corrector

GUARANTEED CONTENTS:	% w/w	% w/v
Magnesium (MgO) water-soluble:	4,00	4,80
Magnesium (MgO) complexed by HGA:	4,00	4,80
Complexing agent: Heptagluconic acid (HGA)		
Stable in the pH range: 1 – 10		

pH=8,5
1 l = 1,2 kg.

Properties

FLOWAL Mg is a product made of complexed magnesium. It has been developed to be used as a source of this element and for correcting insufficiencies due to deficiencies or imbalances in the assimilation of magnesium. Thanks to its complexing agent, it is quickly absorbed and assimilated by the crop.

FLOWAL Mg is specially developed for the preventive and curative control of magnesium deficiencies which take place in acid/sandy soils or because of the presence of antagonist elements.

Crop

FLOWAL Mg is recommended for all types of crops: fruit trees (pip and pit fruits), citrus, vegetables, extensive and ornamental crops.

Doses and directions for use

Both radicular and/or foliar applications.

General application rates:

Foliar: 2 – 4 l/ha and application.

Radicular: 2,5 -- 5 l/ha and application.

It is recommended to apply it preferably during sprouting and during the main development stages of the fruit. Do not apply during

CROP	DOSES l/ha		APPLICATIONS / FREQUENCY
	Foliar	Radicular	
 Fruit vegetables	2 - 4	3 - 5	2 - 4 applications
 Leaf vegetables	2 - 4	3 - 5	2 - 4 applications
 Citrus and subtropical crops	2 - 3	4 - 6	2 - 4 applications
 Fruit trees, olive trees and vines	2 - 3	4 - 6	2 - 4 applications
 Extensive and ornamental	2 - 4	3 - 5	2 - 4 applications

Compatibilities

FLOWAL Mg is compatible with most of the available fertilizers and phytosanitary products known, even though it is advisable to perform a previous test. Do not mix with mineral oils, sulphur or alkaline reaction products.
