

PINOPHYTAL MIX

CE

Self-defense inducer – Pinophytes extracts

GUARANTEED CONTENTS:	% w/w	% w/v
Copper (Cu) water-soluble:	1,50	1,88
Manganese (Mn) water-soluble:	0,50	0,63
Zinc (Zn) water-soluble:	0,50	0,63

Control ECOCERT SA F-32600

Suitable product to use in Organic Farming according to (EC) regulations n° 2018/848 and 2021/1165

pH=2,3
1 l = 1,25 kg.

Properties

PINOPHYTAL MIX is a solution of natural extracts of PINOPHYTES with microelements that favours the synthesis of the phenolic substances and phytoalexins that are created by the plants themselves to face specific situations of stress

- It does not adversely affect crop development
- It does not stain or produce phytotoxicity at the recommended doses
- Completely natural
- Free of residues

Crops

PINOPHYTAL MIX is recommended for all types of crops: fruit trees (pip and pit fruits), citrus, vegetables, extensive and ornamental crops.

Doses and directions for use

Radicular application.

General application rates:

Radicular: :2 – 3 l/ha and application.

It is recommended to make several applications throughout the vegetative cycle. For foliar application, a previous test on the crop shall be done.

CROP	DOSES l/ha	APPLICATIONS / FREQUENCY
	Radiculaire	
 Fruit vegetables	2 – 2,5	2 – 6 applications every 7-10 days
 Leaf vegetables	2 – 2,5	2 – 6 applications every 7-10 days
 Citrus and subtropical crops	2,5 - 3	2 – 4 applications
 Fruit trees, olive trees and vines	2,5 - 3	2 – 4 applications
 Extensive and ornamental crops	1,5 – 2,5	2 – 4 applications

INCOMPATIBILITIES

PINOPHYTAL MIX is compatible with most fertilizers and agrochemical products known, although it is always advisable to perform a previous test. Do not mix with mineral oils.
